

The 35th Nordic
Geological Winter
Meeting

Sixth Circular

The Geoscience Society of Iceland

ABSTRACT SUBMISSION DEADLINE EXTENDED to the 1st of March

Dear colleagues

The Geoscience Society of Iceland hereby invites you to attend the 35th Nordic Geological Winter Meeting. The meeting will take place from the 11th to the 13th of May 2022 on the campus of the University of Iceland in Reykjavík.

As the meeting will take place in May, we would like to use the opportunity to add additional field excursions to the meeting. We cannot promise a live eruption in May, but we will have a field excursion to the 2021 Fagradalsfjall eruption site on the Reykjanes Peninsula on Tuesday May 10th. Two additional three-day field excursions are also planned after the conference on the 14th of May; one along the south coast of Iceland, and another one to the Borgarfjörður and Snæfellsnes peninsula. More detailed information can be found on the homepage of the conference.

Registration and abstract submission were opened on the 15th of January, and we have extended the abstract submission until the 1st of March. Additional information about the meeting and travel arrangements are available on the homepage (www.jfi.is).

We would also like to inform you that you can propose candidate for the Nordic Geoscientist Award. We have also extended the deadline for submission to the 1st of March. Additional information can be found on the homepage.

We look forward to meet you in person here in Reykjavík in May.

Þorsteinn Sæmundsson
Chairman of the Geoscience Society of Iceland
