Fourth circular • 150 years anniversary meeting

In 2021 it was 150 years since the Geological Society of Sweden was founded. Due to the pandemic restriction we decided to postpone the jubilee meeting until 2022 and now we are finally set to go! We will commemorate the jubilee by organising an anniversary meeting in Uppsala 17–19 August 2022.

Our ambition and hope is that this meeting and anniversary will be of interest to all geoscientists that are active in Sweden or that have an interest in various aspects of Swedish geoscience.

Important dates

May 15, 2022	Deadline for abstract submission.
July 30, 2022	Deadline for registration.
August 17–19, 2022	Meeting takes place in Uppsala.
August 20, 2022	Post-conference fieldtrip.

Venue

The meeting will be held at the Department of Earth Sciences, Uppsala University and the Geological Survey of Sweden, both located at Villavägen 16-18. Icebreaker will be held at Evolutionsmuséet and conference dinner to be announced. All locations are close to Uppsala city centre.

Registration

Registration fees and online registration will be found on the website.
